# Wiktor Mendalka

**Product Engineer (Node.js/.NET/AI)**

Backend engineer who has run his own product, led teams, and shipped for clients - across the full stack of what building software actually involves.

I stand out by:

- Comfortably switching between strategic thinking and hands-on execution.
- Bringing a strong, multidisciplinary educational background.
- Actively contributing to professional communities while continuously upskilling.
- Valuing soft skills and knowledge sharing as highly as technical excellence.

## Skill Summary

- 6+ years of freelancing experience, working independently - mostly in C# & Node.js and part-time.
- 3+ years of running my own company; working as a Software House, a Recruitment Agency and mentoring developers.
- 2+ years working as a fullstack Nodejs / React developer.
- Master's degree in Computer Sci., Bachelor's in Cognitive Sci., Bachelor's in Management.
- Engaged AI community member & event host in Warsaw.
- Have a track record of delivering results via both programming & mentoring.

## Development Tools

- TypeScript / Node.js
- C# / ASP.NET
- React
- Playwright
- MongoDB
- SQL
- Redis

## Languages

- English - C1
- Polish - C2 (native)

# Experience

## SparkTech Wiktor Mendalka

### softwarecity.pl - Software House

**Mar 2023 - present**

Budget-friendly MVP & website development. Creating and maintaining data-intensive web apps. Example projects include casino minigames, gamification, AI coach app module.

- WeGuide AI: Developed MVP from scratch to the first B2B consumer.

### coursify.pl - Individual Education in IT

**Mar 2023 - present**

Built and run an individual mentoring program working exclusively with mid+ developers, focusing on soft skills - emotional intelligence, team leadership - as well as career advisory and AI tools usage.

- Format: Structured around weekly 1:1s with async support between sessions.
- Volume: Scaled to 100+ individual customers to date.

## SavageTech GmbH via GeekForce software house

### Backend developer

**Jul 2023 - Jul 2025**

iGaming industry - development & maintenance of new backend features within the Node & Azure ecosystem.

- Stack: TypeScript, Node.js, MongoDB, React, Azure, Jest.
- Team size: 10 overall; Backend team was 1x senior + myself.
- Responsibilities: 80% development of new features, 20% maintenance.
- Architectural patterns: DDD, CQRS, DI, Event Sourcing.
- I've worked directly with the client and regularly made business presentations.

### QA engineer

**Aug 2024 – May 2025**

Development and maintenance of automated testing using Playwright.

- Automated test should be able to run in parallel and in headed mode.
- Created test infrastructure from scratch & integrated CI/CD.

## University of Warsaw

### Research Assistant / Instructor

**Feb 2025 – Oct 2025**

- Conducting research related to Computer Vision.
- Instructor for Machine Learning class. Lab details: link.
- PhD candidate in 2026.

## LeagueSharp & freelance

### Developer at LeagueSharp

**2014 - 2017**

Cheat for a MOBA game, my plugins were used by 50.000+ paying customers worldwide.

- Development & maintenance of various C# console apps & Angular frontend.
- Integrating with C++ native APIs via C++/CLI.

### Freelance developer

**2017 - 2020**

- DirectX UI development using both C# (SharpDX) and native C++
- Rust console app development.

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).

### Familiarity With

- Python: Jupyter Notebook, Keras, SkLearn.
- Angular.
- Rust.
- C++ & C++/CLI.
- Microsoft Azure, AWS, Google Cloud.

### AI Tools

- Claude Code.
- Lovable.
- Cursor.
- Github Copilot.
- Bolt.new.
- v0.dev.
- ChatGPT, Claude, Gemini, Perplexity.

### Certificates

- DomeTrain - All C# courses (as of 12.2025).
- Machina B2B 1.0 - Sprzedaż i Prospecting.
- Machina B2B 3.0 - Zarządzanie zespołami.
- Machina B2B 4.0 - Narzędzia IT.
- English C2 - university certificate.

### Company VAT ID (for B2B)

- PL5711720837

### Career Goals

- Grow into a senior-level product engineer with strong ownership over complex systems.
- Contribute to a long-term product where engineering quality and thoughtful delivery matter.

### Work Preference

- Open to remote work.
- Available for hybrid roles in Warsaw (up to 3 days on-site per week).
- Open to occasional on-site presence in other Polish cities (up to 5 days per month)

### Hobbies

- Sports: Boxing, Skiing & Running.
- Dance: Bachata & Tango.
- Public speaking: Toastmasters & YouTube.
- Math: Analysis & Algebra.
- Cooking & serving cocktails.
- Soft skills: NVC & empathy workshops.
- Chess.

# Community & Events

## Warsaw.AI

### Community - contributor

**Feb 2025 - present**

I'm an active member of Warsaw.AI - a community of AI enthusiasts, researchers, and practitioners focused on advancing artificial intelligence knowledge and applications through meetups, workshops, and collaborative project.
I co-authored a chapter in the book "Artificial Intelligence methods for Autonomous Driving".

### Hackathon - co-organizer

**Nov 2025**

Coordinated event logistics, managed partnerships with tech industry leaders, and facilitated collaboration among 150 registered participants working on AI-driven innovations.

## AI Tinkerers

### Community - member

**Apr 2025 - present**

Active member of AI Tinkerers - a global community of AI builders focused on hands-on experimentation and practical applications.

# Education

## Computer Science

### University of the National Education Commission

**2023 - 2024**

- Master's degree
- Thesis: Neural network ART-1 research & development in image analysis

### AGH University of Science and Technology // EAIiIB

**2017 - 2022**

- Bachelor's degree
- Thesis: Optimization of the flowcharts representing the algorithmic state machines.
- Leader of the AGH Mobile science club

## Cognitive Science

### Jagiellonian University

**2019 - 2023**

- Bachelor's degree
- Thesis: Identification of hidden objects for visual perception in virtual reality

## Management

### Jagiellonian University

**2019 - 2022**

- Bachelor's degree
- Thesis: Influence of information about the product's country of origin on purchasing decisions of foreigners in Poland.
- Specialization: Company management

**Curious to learn more about my experience and how it can contribute to your organization's success?**

Feel free to reach out - I'd love to discuss potential opportunities!
